## Sales Kit

# Our mission — Making the world a happier place one vagina at a time.

Dame Products was founded by smart women with the purpose of making phenomenal sex toys. Our continuing mission: to design well-engineered sex toys, to heighten intimacy, and to openly empower the sexual experiences of humankind.

# The Two That Started It All

## **Alex** **Co-founder & CEO**

Alex got her Masters in Clinical Psychology from Columbia University in 2011, focusing on her lifelong interest: sexuality. From volunteering with the Red Cross to hosting a sex talk radio show, she's always pursued opportunities to learn more about sexual health. Her experience at other consumer packaged goods startups gave her the know-how to start her own company.

## **Janet** **Co-founder & CTO**

Janet earned her mechanical engineering degree from MIT in 2007 before starting her career in product development, designing everything from dustpans to 3D printers. She worked for companies like Z Corp, Quirky, and Makerbot before deciding to turn her engineering efforts to the often-overlooked field of sex toys.

We believe sex toys should satisfy real women's needs. Instead of starting with a flashy feature or a kooky shape, we begin our design process with focus groups and scientific research. If it doesn't fit into your sex life, then it doesn't fit on our roadmap.

# Meet Eva II. A Hands-Free Vibrator

Eva launched on Indiegogo  
and raised almost \$500,000!

Available in two colours  
Left: Eva-02-Fir (Fir)  
Top: Eva-02-Quartz (Quartz)  
C\$175

With flexible wings that tuck under the labia while Eva II sits on top, you can have clitoral stimulation during penetrative sex.

### **Made to fit more vulvas**

Vulvas come in all shapes and sizes, so we've done our best to make a product that works for as many as possible.

### **Charging case**

Get fully charged in 4 hours, and Eva II will last for up to 5 hours.

### **Travel-friendly**

Easy to protect and keep Eva clean while on the go.

### **Waterproof**

Go ahead and get wet! We really mean it. Both ways. Eva II will do just fine fully submerged.

### **More rumble**

A less buzzy motor, while still being powerful and quiet

- Smaller overall dimensions
- Shorter wings for improved fit
- 10% lighter & 18% smaller than Eva
- Button relocated from front to top

# Meet Fin.

Fin was the first sex toy to launch on Kickstarter. The campaign raised almost \$400,000, pretty cool!
